

Modern Design

Crafted for Comfort,
Designed for Elegance

Durable

400 kg Weight Test
All wall hung WC pans and concealed cisterns can hold up to 400 kg.

Weight Test
All seats and covers are subjected to a weight test.

Open / Close Test
All seats and covers are subjected to an open / close test.

Stainless Steel Hinges
Seats and cover hinges are produced out of wear and water-resistant stainless steel.

Stainless Steel Connection Flexes
Connection flexes of wall hung WC pans are produced out of water-resistant and long-lasting stainless steel material.

Hygienic

Glazed Duct and Flusher Interior
WC pans are dirt-proof, easy-cleaning and hygienic thanks to the glazed surface in duct and flusher.

Functional Test
All WC pans are subjected to a 6-liters functional test.

Odor Test
All WC pans are Subjected to an odor leakage test.

Easily Removable Seats & Covers
Easy to clean thanks to the special hinges.

Silent

Soft Close Seats & Covers
Soft Closing and silent
Special technology

Water Conserving

3 / 7 Lt WC Pans
Saves water with 3 Ltr. consumption for half function and 7 Ltr. consumption for full function.

1 Ltr. Urinal
Saves water with only 1 Ltr. of water consumption.

A rimless toilet is simply a toilet without a traditional rim. Instead of water flowing into the bowl all the way round the rim, a direct flush technique shoots water around the edge of a smooth pan. As there is no rim, rimless toilets are easy to clean and more hygienic than a traditional toilet.

HOW IT WORK

- * Large water surface offers easy cleaning
- * Extra large siphon jet for maximum power
- * Elegant skirted design offers easy cleaning
- * Large computer designed, fully glazed trap way reduces clogging

FUTURISTIC

Designs That Are
Sleek And Functional

FEEL THE ARTISTIC
IMPRESSION...

Design has always Embraced a certain level of self expression.
but unlike the days when tastemakers expressed themselves and the world adjusted,
today personal style is truly at the heart of design.

Rimless Technology

**ELIMINATES HARD TO REACH AREAS,
ENSURING ENHANCED
HYGIENE AND EFFORTLESS CLEANING.**

In addition to design, sanitary and ease of cleaning are also decisive factors when choosing toilet ceramic appliances. Traditional flush rims attract germs, dirt and deposits.

Simple Project Wall Hung Toilet is designed entirely without a flush rim. There are therefore no hidden, hard to reach places where bacteria can build up and odor can develop.

INSTALLATION METHOD

ONE PIECE CLOSET

1. If the wall is going to be plastered for a thickness of 12 mm and a tile thickness of 6-7 mm, the projection of the bolts from the finished wall should be 66 mm only.
2. If the thickness of plastering and tile is less than the dimensions mentioned above, the bolts that are supplied along with the bracket should be moved into the wall by using a suitable spacer washer between the bolt head and the bracket frame.
3. The bracket should be buried into the floor so that the height from the center line of the bolt to the surface of the finished floor is 320mm.

ONE-PIECE TOILETS are able to be installed in bathrooms with less square footage since they are lower to the floor they are easier to keep clean. As with most equipment, the fewer separate parts that comprise it, the more durable it proves to be. Installing a ONE-PIECE TOILET is generally easier.

WALL HUNG PRODUCTS

As per shown in the picture, the rag bolt must be grouted into the cement/concrete wall. The bolts must be fixed to the cement/concrete wall. Allow setting & checking than install it using nut and washer.

MATERIAL & TOOLS

Measure tape, Keyhole or saber saw, Hammer, Glasses, Rags or Paper toweling, Drill (1/2 dia, drill bit or larger), Pencil, Sealant, Sharp knife or scissors.

INSTALLATION OF LAVATORY

Please Note: Please install it in a way that future removal from underneath the counter top is possible without damaging the counter top.

- Please check the desired location for clearance between the back splash, faucet, fixture and cabinet.
- Please cut the template.
- Please carefully trace the template on the counter top directed.
- Please mark the faucet hole centerline in the counter top.
- Please drill a 1/2' pilot on the inside of the cut line.
